Thirty soldiers of the National Guard reached the city to-night, having walked greater part of the way Olivers, a distance of thirty-six miles. They were hungry and almost physically exhausted. They started to Olivers yesterday, and were captured last night by a body of eight hundred miners, who stripped them of their muskets, side arms and belts. Major Chandler, of the Third Regiment, was threatened with lynching. It is stated that Colonel McBath paid \$10 for his release, provided he should return to the city. HOW THE SURRENDER WAS FORCED. Information received to-night gives the following additional details of the surrender at Oliver Springs. "The miners renewed the attack upon the guards and militia at Big Mountain stockade, four miles from Ohver Springs, at an early hour this morning. The miners' force, which was repulsed Tuesday morning, and which has had the stockade surrounded unthis morning, were reinforced by the Coal Creek delegation at daybreak. There were six hundred in the three special trains, which were run according to their orders. They were joined by the local miners to the number of two hundred, and after securing the firearms of all the citizens here, marched in a body to within five hundred yards the guard-houses. Here they halted and sent a committee of ten. The committee was accompanied by several prominent citizens of this place, to ratify any agreement reached.

They asked a complete surrender, and stated they had 1,700 men to force the same if refused. Warden Farris saw the folly of a fight, and, after holding a conference with the Knoxville Rines officers, surrendered. The torch was then applied to the stockade and two guard-houses. The company store was ransacked and many goods carried away. The offices of the company suffered in a like manner, the books and stationery being torn into shreads. Fire was applied to the company stables and a number of small houses which surrounded the magazine containing 315 kegs of powder. When notified they would blow up the valley by this act the leaders made the men put the fire out. The convicts, guards and militia were then marched to the special trains and put aboard. When they reached this point they decided to leave the militia, and did so. The miners left for Coal Creek at 10 o'clock. They fired their guns in the air as the train pulled out. At Clinton they shipped the guards and convicts Knoxville and took the branch road for Coal Creek. No one here was molested further than being compelled to give up all arms. When the miners arrived a number of citizens of this place jumped from their beds and fled to the hills undressed. This fright was caused by a report that the miners would conscript the citizens if they failed to take the stockade." save that six hundred miners from Kentucky took charge of the East Tennessee freight train at Jellico to-

A censorship of telegrams has been established, and the miners will allow no unfaverable news to be sent out. The State Board of Prison Inspectors today demanded that the lessees of the penitentiary of the Tennessee Coal, Iron and Railroad Company carry out their contract. Failing to do so, at the end of twenty days, the lease will be declared forfeited.

TROOPS EN ROUTE.

The Governor Calls Out All the Militia for Service at Coal Creek. Special to the Indianapolis Journal.

CHATTANOOGA, Tenn., Aug. 17 .- All day groups of excited people have stood in the streets reading bulletins from the seat of war. A penetrating rain has been steadily failing all over the district, but the people did not seem to mind it. All are turned toward the mindistrict, where the victorious miners are sweeping law and property before them without stopping to count .the cost. Oliver Springs has fallen before the rifles of the miners, and Coal Creek is the last link now in the remaining chain. It is the cynosure of all eyes. It is here that bloodshed will come if it comes at all. The garrison is on a hill and a "standing army" of 150 men has been kept there for nearly a year. It has block nouses and every requisite for defense. Five hundred men were taken to the place from Knoxville. The little handful from Chattanooga will go there at once, with Gatling gun and howitzer. They command a full sweep of the valley below and should the stockade be attacked they are safe. Bulletins were posted calling for volunteers, and fifty men responded to the call. They left to-night for Coal Creek. The Second Regiment, consisting of four companies of infantry and an artillery company, also left to-night. Fully nine hundred men will be ready to face the miners to-morrow, and a bloody conflict may be expected, unless the miners change from their present plans. Governor Buchanan has asked the sheriff of Roan county to take five hundred men to the scene of trouble. Forces are being concentrated on Coal Creek, and more may be expected at midnight.

11 P. M. -Governor Buchanan has ordered out the entire State militia under General Sam T. Carnes. They will move to the front at once. The sheriffs of the counties of Knox, Shelby, Hamilton and Davidson were ordered to summon 1,000 men each and go on a special train to the scene. The Governor claims to be able to have eight thousand men on the ground to-morrow at 10 o'clock. Some fears were expressed that the men who left here to-night would be attacked at Soddy, a small mining town en route. A special just received says they passed there in safety.

Ill., whom he is alleged to have wronged while he was a student at that city. He married the girl, but deserted her at once, and is now seeking a divorce that he may return to the Springfield girl and complete the rudely interrupted ceremony of last March.

MILWAUKEE, Aug. 17 .- Secretary Rusk entered the hall just as the Republican State convention was called to order at noon to-day. When he reached the stage and his tall form could be seen by everybody the enthusiasm was uproarious. The Secretary smiled his acknowledgment and was conducted to seat in the center of the stage. The convention at once went to work. Eugene S. Elliott was made temporary chairman. Then the various committees were appointed and a recess taken. The platform adopted approves the Minneapolis platform, denounces the proposition of the Democratic national platform to repeal the tax levied on the circulation of State banks, denounces as without foundation the statement reiterated by the Democratic press that Republican success in Wisconsin involves the surrender or compromise of whatever legal rights the courts may hold to exist in favor of the State upon the bonds of ex-State treasurers, and promises to enforce the legal rights of the people, It approves the admin-President Harrison, * reistration of affirms and indorses the declaration of the Republican convention held in this city in May last upon the educational question as fully defining the position of the Republican party of the State upon the subject, which was that the "educational issue" of 1890 is permanently settled and not to be revived by the Republican party: it denounces the Democratic apportionment; denounces "the parsimony of the Democratic party of the State for its refusal to make adequate appropriation of money for a fit representation by the State at the world's fair," and calls attention "with shame to the action of the Democratic majority in Congress in refusing to grant a liberal appropriation for the fair."

Michigan Democratic Nominations. GRAND RAPIDS, Mich., Aug. 17 .- Harmony, with a very large-sized "H," was the rule to-day in the largest Democratic convention which Michigan ever saw. The only ripple which at all disturbed the convention's serene course was the candidacy of Adolphus A. Ellis for Attorney-general. Mr. Ellis was indorsed two weeks ago for the same office by the People's party, and A private message received at midnight | this fact aroused some opposition from the true-blue Democracy. The great majority of the delegates, however, declare Mr. Eilis's Democracy quite good enough for them. The following is the ticket nom!nated: For Governor, Allan B. Morse, of lonia; Lieutenant-governor, James P. Edwards, of Houghton; Treasurer, Fred K. Marvin, of Wayne; Secretary of State, Charles F. Marskey, of Saginaw; Auditor, James H. In Police Court this morning he told a strange story. He gave his name as John Martz and said he had recently been employed in the Libby glass-works at Toledo, O. He said: "I came to Muncie from Toledo and

reached here Saturday night. I had no money and was forced to sleep where I could. As for food I have had but little until I ate a good breakfast at the jail this morning. A few days ago my mind seemed to wander and I saw a number of people beckoning to me. I went to the woods and laid down, when a voice like that of a bird. commanded me to stay awake. Then this voice related to me all the events of my past life. I could not sleep and was forced to arise and hurry away. I was bewitched. A being called the Unseen Hand constantly pursued me and talked continually. I made me think bees were after me and I saw strange sights. I imagined I saw two Gods near the court-house. While looking at them one disappeared and the other conversed with me. I then sent a message to the sun by means of a bird which fiew to me. If the afflicted tree be not promptly cut down, its neighbor will immediately catch the scourge, and soon both will be dead, As yet no remedy has been found, For want of a better name, the fruit-growers have termed it premature ripening.

BLOCKADE AT BUFFALO.

[Concluded from First Page] eration to-morrow for the protection of men making up trains. Flat or "gondola" cars are now being prepared with fixed benches running lengthwise the cars. These benches are to be occupied by sharpshooters, well armed, and each of these cars is to be hooked to the cow-catcher or buffer of each switch-engine. Thus the crews will be constantly under ready guard. There was much talk this afternoon of nessage from Sheriff Beck to Governor Flower asking that the full militia force of the State be ordered here. The facts are these: There was a conference in the sheriff's office this noon. There were present Third Vice-president Webb and ex-Senator McMillan, of the Central; Mr. Knibloe, of the Buttalo Creek; Hon. E. C. Sprague, of the Erie, and Messrs. Bissell and Brundage, of the Reading. The conference did not last long, and

resulted in the sheriff drawing the following telegram to Governor Flower: The strike here has assumed such grave conditions that it is imperative, in order to protect life and property in this city and county, that the National Guard of the State of New York be ordered out, and most earnestly request the pro-

tection of the State authorities to that extent. After drawing up the dispatch, and after the railroad men had departed, Sheriff Beck decided to hold the important telegram until he could take time to go to Cheektowaga and consult with General Doyle.

Enough Men to Fill Strikers' Places. Special to the Indianapolis Journal.

READING. Pa., Aug. 17 .- One hundred mountain men passed through here this afternoon to take the places of the strikers on the Lehigh Valley railroad. They came from Pine Grove, Frackville and Cressona, and all are practical and experienced grade men, and will be used on the mountains, It was learned this evening that the company has secured enough men siready to till the places of every striker on the entire system. It is not believed, however, that the trouble will extend south of Packerton. Nearly all of the old men were called upon personally to-day, and the majority gave assurance that they would stand up for the company. Cars are being fitted at the shops with bunks, mattresses, stoves and tables, and will be sent out tonight. The company is making every preparation for the comfort and protection of the non-union men. They will be fed and housed in the various yards pending the trouble. Special policemen will accompany all trains east and west, and it is said that the non-union men on all through freight trains are to be given police power by having them sworn in as deputy sheriffs. Several stock trains were brought through from Buffalo, via Williamsport, last night, and it is likely freight will be handled in this way until the blockade is

raised at Buffalo. Strikers to Be Paid Off. PHILADELPHIA, Pa., Aug. 17.-President McLeod, of the Reading railroad, to-day issued orders to all the counsel of the company at the various points along the line to begin legal proceedings at once for the punishment, without fear or favor, of the men who had been detected in destroying the property of the company. President McLeod to-day addressed the following to

General Manager Swagard:

The operations of the yards at Buffalo, Waver-ly and Sayre will be resumed Thursday, the 18th inst. You are hereby instructed to pay off and discharge at once all employes who have gone out on strike, except such hitherto efficient and faithful men as you are convinced were coerced into the abandonment of their duties, and who, if left to their own free will, would not have left the service of the company, and may have families or others dependent on them. But the ringleaders and strikers who are in any way responsible for, or participated in, the destruction of the company's property, or who have been guilty of interference with the movement of trains or performance of duty by other employes, must not now or ever be restored to the service of the company.

TROUBLE AT HOMESTEAD.

Unknown Persons Shoot at the Soldiers, Who Promptly Return the Fire. HOMESTEAD, Pa., Aug. 17.-There was great excitement both inside and outside

of the Carnegie mills at Homestead to-days The non-union workmen became almost uncontrollable in terror. About 8 o'clock a long freight train on the Pittsburg, Mo-Keesport & Youghiogheny railroad passed through the mill-yard and on to the railroad bridge spanning the Monongabela river. Just as the train emerged from the mill-yards several shots, in rapid succession, were fired from various parts of the rapidly-moving train into the ranks of the militiamen who are doing guard duty along the river front. The company attacked was ordered to reon the side of the river also opened fire and over one hundred shots were sent after the rapidly disappearing train. It is not yet known if anyone was injured. The first shot fired appeared to come from the engine cab window. The general officers of the road have been called upon to investigate

the shooting. Superintendent Potter savs Arthur Cooper was injured by a gas-pipe explosion from his injuries this afternuon. Other reports are that another man, named Stephen Leightner, of Braddock, was also injured by the explosion, and has since died. It is said also that a number of other workmen were badly hurs, but the report lacks confirmation
